

Get Money Back On Your Home

Are you a homeowner living in New Hampshire who:

- Earns \$37,000 or less filing as single or \$47,000 or less filing jointly or as head of household?
- Has been residing in your home since April 1st of the filing year or earlier?

Then you could be eligible for property tax relief and get money back in your pocket!

The New Hampshire Low and Moderate Income Homeowners Property Tax Relief program provides relief to low and moderate adult earners. Individuals have the right to file for this program even if they do not file federal income taxes. Eligible individuals can begin filing for this relief program beginning May 1st of each tax year.

AARP Foundation Property Tax-Aide offers a free service for getting property tax relief in your community.

You could save money and get help staying in your home during these tough times.

A trained volunteer can determine if you meet eligibility requirements and help you apply.
